SUMMARY

Full-stack developer and M.Tech candidate at IIIT-Allahabad skilled in **MERN stack**, **AI-driven systems**, and **RESTful API development**. Built and deployed scalable real-time platforms and ML pipelines (**93% accuracy**) for 100+ users, with a strong foundation in **DSA**, **backend design**, and **system optimization**.

EDUCATION

- Indian Institute of Information Technology, Allahabad** CGPA: 8.43 / 10
M.Tech in Information Technology (Software Engineering Specialization) Aug 2024 – Present
 - **Key Coursework:** Software Design & Architecture, Machine Learning, Software Requirements & Estimation.
- Institute of Technology & Management, Gorakhpur** CGPA: 7.76 / 10
B.Tech in Information Technology May 2019 – Jun 2023
 - **Key Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Computer Networks.

TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript (ES6+), SQL, C
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Redux, Socket.IO, FastAPI
- **AI / ML Tools:** Scikit-learn, Pandas, NumPy, SentenceTransformers
- **Developer Tools:** Git, GitHub, Postman, VS Code
- **Core Concepts:** Data Structures & Algorithms, OOP, OS, DBMS, CN, REST APIs, Agile Development

PROJECTS

- DevLinker** [\[GitHub\]](#) [\[Live\]](#)
AI-powered developer referral & real-time collaboration platform with intelligent skill-based feed
 - **Tech Stack:** React, Node.js, Express, MongoDB, Socket.IO, JWT, Redux, FastAPI, SentenceTransformer.
 - Built a full-stack **MERN platform** with secure **JWT + bcrypt authentication**, serving **100+ active users**.
 - Implemented **real-time chat** using Socket.IO with auto-reconnect, achieving sub-**200ms** latency and persistent chat history.
 - Integrated an **AI microservice** (FastAPI + SentenceTransformer) generating embeddings for **500+ user profiles** to drive skill-based recommendations.
 - Optimized MongoDB queries with indexed filters & pagination, reducing feed latency by **70%** and improving scalability.
 - Deployed modular microservices on **Render** and **HuggingFace Spaces** ensuring fault tolerance and minimal downtime.
- Speech-Based Emotion Recognition** [\[GitHub\]](#)
End-to-end ML pipeline for emotion classification from speech using acoustic features
 - **Tech Stack:** Python, Librosa, NumPy, Scikit-learn.
 - Built an **audio preprocessing pipeline** extracting **180+ features** (MFCC, Chroma, Mel-Spectrogram) from labeled .wav datasets.
 - Achieved **93% accuracy** and **90% F1-score** on a **1.2k-sample dataset** using a fine-tuned **SVM model**, surpassing other models.

INTERNSHIP

- **Prakhar Goonj Publications** Jun 2023 – Dec 2023
Backend Development Intern / [Certificate](#) Remote
 - * **Tech Stack:** Node.js, Express.js, MongoDB, JWT, bcrypt, Postman, Linux.
 - * Designed and deployed **10+ RESTful APIs** for catalog, order, and author workflows, automating **80%** of backend operations.
 - * Implemented secure **JWT authentication** and **bcrypt hashing**, ensuring end-to-end data integrity.
 - * Created automated **Postman test suites** covering 100% of endpoints, improving regression testing speed by **35%**.
 - * Enhanced reliability via validation middleware & modular controllers, reducing API downtime by **30%**.

ACHIEVEMENTS

- Solved **500+ DSA problems** on [LeetCode](#) and [GeeksforGeeks](#), ranking in the top 10% of weekly contests.
- Secured **AIR 2917 (GATE CSE 2024)** among **1.23L+ candidates (Top 2.4% Nationwide)**.
- Led a **6-member Technical Team @ Parampara Fest 2021–22**, automating registration workflows and cutting manual coordination by **70%**.
